CONCRETE COPINGS

**BASIC USES AND FEATURES**
- For wall caps on masonry walls.
- Copings can be furnished with or without drip edges.

**COMPOSITION & MATERIALS**
- Concrete: Air entrained, achieving 5000 PSI compressive strength in 28 days.
- Reinforcing: Steel rebars in each unit.

**AVAILABLE FINISHES**
- Light Sandblast Texture, natural concrete color.
- Smooth As-cast Surfaces, natural concrete color.

**OTHER SHAPES AND SIZES**
- Many other different sill units are available. Contact Oberfield's Sales Department for additional information.
- Colored Precast "PC" finishes available with light sandblast texture.
**NOTES:**

- Available Finishes for precast concrete products are shown and described to indicate approximate color and texture involved.
- Photographic representation of finish texture is approximately 25 percent of actual size.
- Refer to Oberfields LLC® data sheets showing specific precast concrete products to see which finishes are applicable for those products.
- **All Colored Precast “PC” finishes are only available in Light Sandblast texture.**
