CONCRETE PIER CAPS

BASIC USES AND FEATURES

- For caps on top of free-standing masonry piers.

COMPOSITION & MATERIALS

- Concrete: Air entrained, achieving 5000 PSI compressive strength in 28 days.
- Reinforcing: Steel rebars in each unit

AVAILABLE FINISHES

- Light Sandblast Texture, natural concrete color.
- Smooth As-cast Surfaces, natural concrete color.
- Colored Precast "PC" finishes available with light sandblast texture.
PRECAST CONCRETE FINISHES

NOTES:

• Available Finishes for precast concrete products are shown and described to indicate approximate color and texture involved.

• Photographic representation of finish texture is approximately 25 percent of actual size.

• Refer to Oberfields LLC® data sheets showing specific precast concrete products to see which finishes are applicable for those products.

• All Colored Precast “PC” finishes are only available in Light Sandblast texture.
