

Now available with 20% pre-consumer recycled content!

THE ADVANTAGES OF USING SPEC-BRIK® ON YOUR NEXT PROJECT

- Increased speed of construction.
- Wide variety of colors that look like brick.
- Nationwide availability.
- Energy efficient.
- Mold and fire resistant.
- Smooth, brick like textures.
- Minimal maintenance required.
- Produced locally, readily available, assuring quick delivery.

Sustainable Solutions for your next green building project

The new 20% pre-consumer recycled content SPEC-BRIK product is the latest example of CPG's commitment to environmental stewardship that we call "SPEC-GREEN". SPEC-GREEN is an initiative to provide innovative products that contribute to sustainable building practices and promote the environmental benefits of manufactured concrete products.

The percentage of recycled content is calculated in accordance with LEED guidelines, including the alternative method for concrete products, which calculates the percentage substitution of recycled cement substitutes for cement. Your CPG manufacturer will provide documentation indicating the method for calculating recycled content of the product upon request.

Potential Credits Under LEED® 2009

LEED Credit	Credit Description	Points	SPEC-GREEN Solution
Materials & Resources MR Credit 4.1 & 4.2	Recycled Content: 10%/20% (post-consumer + 1/2 pre-consumer)	1/1	SPEC-BRIK with 20% Pre-Consumer Recycled Content will help obtain credit for use of recycled content on your project under this provision.
Materials & Resources MR Credit 5.1 & 5.2	Regional Materials: 10%/20% Extracted, Processed & Manufactured Regionally	1/1	SPEC-BRIK is made by local production facilities using sand, aggregates, water and cement from local sources. Your manufacturer can confirm the percentage of local origin of its products.

Nationwide Availability

The Concrete Products Group LLC (CPG) consists of regional market leaders in the concrete products industry. The CPG is organized to provide consistent, top-quality products to regional and national customers. Our SPEC-WALL™ products are produced with consistent specifications and production expertise.
