Cubing Pattern x 3 layers high
96 total sq. ft. per pallet

DesignBLOK™ Artistry Series veneer masonry units by OBERFIELDS offers the look of hand-cut stone, without the cutting or chiselling of the units. The units are offered in a split face tumbled facing that gives it a weathered look. The process of manufacturing these units allows them to be more cost effective than natural stone and in some cases manufactured stone (cultured stone). DesignBLOK™ Artistry Series can be used on residential or commercial applications as accents or entire wall applications. The units are manufactured with the same durability you've come to expect with concrete masonry. OBERFIELDS offers DesignBLOK™ Artistry Series in 3 different color blends to fit most job applications. With the four different sizes in each pallet, the range of patterns is unlimited and can be very striking.
