Thermal 2-Seal™ Wing Nut Anchor

Veneer Anchors

Thermal 2-Seal™ Wing Nut Tie - An innovative single screw veneer tie for metal stud construction.

Features: A dual-diameter barrel with factory-installed EPDM washers to seal both the face of the insulation and the air/vapor barrier (an extra large washer helps secure insulation to backup). Projecting Thermal Wings are steel reinforced and coated with highly flame resistant plastic to create a thermal break, decreasing thermal transfer through rigid insulation. The Wings accept a standard or seismic hook, spin to easily orient pintles/hooks to masonry joints, and provide up to 1/2” of adjustability to account for variations in wall thickness. Install with a standard 5/16” hex socket.

Barrel (Stainless Steel): ASTM A580/A580M - AISI Type 304
Screw (Carbon Steel): ASTM A510 (Carbon Steel) ASTM C954 (1000-hour polymer coating)
Wire (Stainless Steel): ASTM A580/A580M - AISI Type 304 or Type 316

Thermal 2-Seal™ Wing Nut Anchor Barrel Finish:
- Stainless Steel - Type 304

Thermal 2-Seal™ Wing Nut Anchor Style*:
- To Accept Continuous Wire
- Hot-Dip Galvanized | Stainless Steel
- Type 304 | Type 316

*NOTE: This anchor requires a 1” (minimum) air cavity.

Hook Finish:
- Hot-Dip Galvanized | Stainless Steel
- Type 304 | Type 316

3/16” Compressed Leg Hook Length:
- Steel: 3” (300H-2X) 4” (400H-2X) 5” (500H-2X)
- Zinc Coated: 3” (300H-2X) 4” (400H-2X) 5” (500H-2X)

Continuous Wire Finish: (Diameter 9 ga. 3/16”)
- Hot-Dip Galvanized | Stainless Steel
- Type 304 | Type 316

Note: H&B recommends Stainless Steel Wire Ties for maximum protection against corrosion.

IMPORTANT: Since each construction project is unique, the appropriate selection and use of any product contained herein must be determined by competent architects, engineers and other appropriate professionals who are familiar with the specific requirements of the project in question.

H&B RECOMMENDS 16” X 16” SPACING

DRAWINGS FOR ILLUSTRATIVE PURPOSES ONLY

Hohmann & Barnard’s 2X-Hook has been tested and designed to withstand over 200-lbf, in tension or compression, at maximum allowed offset (TMS 402/ACI 530 6.2.2.5.5.4) of 1 ¼” (disengagement of the pintle from the veneer anchor). These results exceed BIA recommendations and the capabilities of standard “round wire” hooks/pintles by over 100%, while maintaining the ASTM A1064/1064M wire specification.

1½ Ø WASHER has been independently tested for ASTM E331 & ASTM 2357 performance standards, seals insulation, and helps secure insulation to backup; reduces or eliminates penetrations caused by insulation fasteners.

STEEL REINFORCED PLASTIC COATED WINGS CREATE A THERMAL BREAK

ENVIRO-BARRIER™ AIR/VAPOR BARRIER

2X-HOOK: U.S. Pat. No. 8,613,175

Thermal 2-Seal™ Wing Nut Anchor: US Pat. No. 7,415,803
