Why Choose Oberfields?

AMERICAN-MADE WORLD-CLASS MANUFACTURING

Oberfields is proud to be American-Owned and Made. We manufacture our products within our three manufacturing facilities in central Ohio, and employ over one hundred employees.

NETWORK OF DEALERS & AUTHORIZED CONTRACTORS

You can find our products throughout the Midwest, with direct sales locations in and around central Ohio. We have a valued distributor network who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Oberfields Contractors. To connect with a distributor or authorized contractor in your area, please visit oberfields.com

EXPERIENCED PROFESSIONAL ADVICE

We are more than your supplier, we are your partner. We recognize the importance of sales support and inventory. We have a phenomenal team that's trained to be your resource. Our knowledgeable staff provides expertise from site design and installation techniques, to delivery.

ONE-SOURCE ORDERING

Pavers. Retaining Walls. Step Units. Natural Stone. Structures. Sealers and Cleaners. We've got you covered with one call.

Dura Denz is exclusive to Oberfields and represents a dramatic break-through in concrete casting technology. Our Americana Collection line of premium pavers are infused with Dura Denz. A specially formulated dense top layer that creates a smooth, extra-hard surface that resists chipping, scratching and fading. The result is products that are not only beautiful, but extremely durable

Find your authorized contractor & dealer today

Simply Open the camera app on your phone and scan the code to get in touch with our contractors/dealers.

Our goal is to provide you with quality paver & wall products for your project. We understand that it's a large investment. If you need help with finding the right contractor for your project, we can help. Our goal is to recommend qualified, knowledgeable, certified hardscape contractors. The hardscape contractors found on our Oberfields Authorized Contractor list have shown a proven knowledge on the basics of paver and retaining wall construction and installation. Each company listed has at least one individual on staff that has attended our two-day training course and passed our Certification Exam.

While we try our best to recommend qualified contractors for your project, Oberfields does not guarantee the workmanship of the installer. Please ask your selected contractor for references and about any warranty or guarantees they might provide on workmanship.

FOLLOW THESE STEPS TO SELECT THE IDEAL CONTRACTOR TO BRING YOUR PROJECT TO LIFE.

STEP ONE

It's always a good idea to interview several contractors and find the best match for your project and personality. The contractor you choose will be at your project for days or weeks. Talk about working hours, how many people to expect at the project, what kind of equipment they will be using. Make sure you have a good rapport with the person and communicate your wants and needs.

STEP THREE

Once you reward the project to a specific contractor, get a written contract of the work to be performed. Make sure you understand the scope of your project and that any changes midway through the project, could result in additional costs to the project.

STEP TWO

Once you decide on the work you want to complete, confirm that the contractor has done that type of work in the past. Ask for pictures, references, or go by other projects they have completed and make sure you are happy with their quality of work.

Make sure to ask if they are an Oberfields Authorized Contractor.

STEP FOUR

Once your project is complete, we would love to see finished photos! Photos can be submitted to Oberfields at photos@oberfields.com. Photos may be used in social media or future catalog publications.

Utilize our network of authorized contractors and dealers to build your happy place

We have a valued distributor network throughout the Midwest who are knowledgeable about our products and have our products on display. We take great pride in providing in-depth regional training programs for contractors to become Authorized Oberfields Contractors.

NEW FOR 2021!

WE ARE NOW OFFERING
GEOGRIDS & FABRICS!

The Difference Makers

New Dura-Denz Polymeric Sand

Dura Denz Polymeric Sand is a joint stabilization sand that offers long lasting durability and superior strength when it comes to your pavement joints. Formulated with a blend of native sands and polymer binders; that once activated, allows the joints to expand and contract with the elements – such as freeze/thaw cycles. Dura Denz Poly Sand prevents sand erosion from pavement joints caused by rain and other water run-off, deters weed growth and insect infestation, and reduces overall pavement maintenance. You can be assured that Dura Denz Polymeric Sand will not discolor the surface or leave behind a haze, when installed correctly. Designed and tested in conjunction with the Americana Collection pavers; the Dura Denz Polymeric Sand, as well as Dura Denz Sealers, promotes a system sell of pavers; built to our specifications, delivering both on quality and consistency.

Granite

Tan

Dura Denz Polymeric Sand is recommended for joints up to 3/4" (max). For best performance, install with a minimum depth of 1.5"

Available in two color options: Granite and Tan. Customers can expect our Granite to be richer and deeper in color than its counterparts in the market. This was done purposefully, to best compliment our rich gray tones within the Americana Collection.

1 bag = approximately 100 square feet, depending on paver style

Best Practices

We adhere to ICPI System Practices

- After excavation, install geosynthetic fabric
- Install sub-base material (open graded 3/4" clean or dense 3/4" down to fines)
- Install bedding layer (clean limestone chip or dense concrete sand)
- Install Americana Collection paver
- Sweep in Dura Denz Polymeric Sand
- Clean patio in preparation of sealer
- Seal patio with Dura Denz All-In-One Sealer

New All-In-One Sealers

How many reasons do you need?

Our new Dura Denz All-In-One penetrating sealers enhance color and texture, stabilizes joint sand, and protect against mold, moss and algae. Formulated to resist UV rays, Dura Denz Sealers help to retain the pavers original color while also repelling water and stains. It can be applied immediately after installation on a clean, dry installation and is rain safe in 90 minutes.

Dura Denz Sealers are formulated to give maximum coverage for years. Although formulated in conjunction with the Americana Collection pavers, Dura-Denz Sealers may also be applied to any type of concrete paver, clay paver, flat and stamped concrete, and masonry surfaces such as concrete walls, exposed aggregate and retaining walls.

Make sure you ask your contractor about this very important last step to a professional grade finish. By committing to an easy maintenance plan, you can keep stains from penetrating your hardscape surface and make a world of difference to the look and longevity of your paver project!

Dura Denz penetrating sealers are offered in both water based and solvent based formulas. Each formula offers two finishes—a wet look and a matte look. Either finish adds enhancement and protection for years, with minimal maintenance.

SPECIAL NOTES:

¥ Not available in Michigan

Weight per Cube does not include pallet weight.

PAVER COLOR BLENDS:

Canyon Creek = buff, charcoal, maroon
Earth = brown, buff, charcoal
Flagstone = buff, charcoal, gray
Granite = charcoal, gray
Storm = brown, light grey, black

Due to color variations, it's imperative to pull/install from multiple cubes at a time.
